January 6, 2006

Dear Lenny,

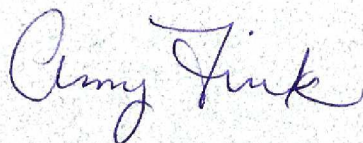

On behalf of the Entrepreneurial Woman's Network I am writing to thank you for presenting *7 Key Decisions Your Website Visitor Makes "BEFORE" They Decide To Do Business With You* to our members at our January 6th Professional Development Workshop.

It was a highly educational session packed with extremely valuable information. Your online examples and demonstrations made everything you explained easy to understand and the importance crystal clear. The handout you provided allowed attendees to easily make notes.

As I'm sure you could tell, response to the workshop was very positive and enthusiastic. Business owners want their website to be a productive tool – the topic attracted a larger attendance than we usually have at our professional development events – and I have no doubt that every attendee left feeling empowered to make their company's website bring them more business !

Thank you again for an excellent program. Your ears might be burning this weekend as all those EWN members tell everyone they know about Lenny Laskowski! I will certainly highly recommend you to any potential clients.

sincerely,

Amy Fink McAndrew
