Dear Lenny,

I would like to thank you for the outstanding seminar that you recently conducted for our training and sales divisions. Your 2 day seminar, "How to Effectively Present Yourself and Ideas" was exactly what our people needed.

Your thorough and professional presentation of ideas, practical exercises and printed material, made the seminar both enjoyable and easy to understand. The attendees left the seminar confident in their increased presentation skills and eager to apply all that they had learned.

You were a pleasure to work with and I would recommend your services to any organization that wishes to increase the presentation skills of their staff.

Thank You

Dennis Perron

Training Director
