Description

A simple road map to the world of professional presentations

What happens when you're asked to give a speech, professionally or personally? If you get nervous, start sweating, and hope it's all just a bad dream then you aren't alone, but you need help. *Painless Presentations* proves that speaking doesn't have to be painful, or even stressful. A speech is a means to giving great, helpful material to an audience and the speaker is the vehicle to achieve that goal. This simple-to-read book guides those just beginning their journey into the world of speaking. *Painless Presentations* teaches the "Dozen Deadly Dangers" to avoid and much more.

Explains how to gather information and materials

Details the structure of a presentation

Describes uses of visual aids and vocal variety

Demonstrates how to handle questions

Painless Presentations offers wisdom derived from Lenny Laskowski's thirty-five-year speaking career, delivering more than 2,700 programs to clients in over 178 countries. It will give you no-sweat tips for delivering speeches that win over your audiences every time and teaches you that giving speeches doesn't have to be painful.

What People Have Said...

Lenny - I would like to express my thanks to you for the role you played in making our National Business Meeting a tremendous success this year! Your seminar "Simply Speaking...Selling Yourself and Your Ideas" was highly informative, interesting and effective. Everyone who attended greatly benefited and gave successful presentations at our meeting.

Mark Lyle, Vice President, Marketing
W.J. Deutsch & Sons Ltd.

"Thanks Lenny. Your presentation was energetic and achieved our goal of setting the stage for the day-- your insights, particularly about SEO got rave reviews from a rather savvy marketing crowd."

Mona Buckley, CEO
Professional Insurance Marketing Association

"I would like to thank you for the outstanding seminar you recently conducted on behalf of Verizon's National Sales Support Team. Your seminar, "Simply Speaking...Selling Yourself & Your Ideas" was exactly the type of hands-on, practical skills transfer that we were looking for! I also want to thank you, for your thorough preparation and the quality of the materials that you provided to our group. Much of the anecdotal feedback that we have received truly speaks very positively to your professionalism and method of delivery. As our group makes presentations for a living, you were able to speak to them in a language familiar to them and to provide them with tips and techniques with which they were previously unfamiliar. The participants left your seminar energized and with an increased level of confidence in their abilities to make professional presentations.

Jeff Patton, Senior Staff Consultant/Manager
National Sales Support Team
Verizon

"I would like to thank you for your recent efforts in upgrading the presentation skills of the R&D department here at Cabot Microelectronics. I thought the format of you presenting two 4-hr workshops in early summer, followed by critiquing our project reviews one- and two-months later respectively, was highly effective. It enabled the concepts to sink in and be out into practice immediately, and brought you back to reinforce good practices."

Cliff Spiro, Vice President, Research & Development
Cabot Microelectronics

"I want to thank you for providing your two-day presentation skills seminar for our professional staff at the French Embassy in Washington, DC. The feedback we received from each of participants was that the seminar was one of the best seminars they ever attended. The program was very well organized and each participant learned much during the two days you spent with us. We certainly plan to use your services in the near future for another seminar.

Laurent Jacquet-Saillard, Head of Administrative Department
Ambassade De France Aux Etats-Unis

Customer Service Programs
