What People Have Said...

"I've been speaking professionally for over 16 years spending thousands of dollars in various websites that never worked as advertised from supposedly top flight designers. For an investment of a regular chapter meeting, Lenny Laskowski provided specific & powerful tools and techniques that made immediate massive positive impact on my website. He also provided a remarkable format for a reliable internet marketing tool. This is one of the NSA speakers every chapter should have on their "must come here" list.

— Bil Karlson, Past President, NSA Tennessee

"I would like to thank you for the outstanding seminar you recently conducted on behalf of Verizon's National Sales Support Team. Your seminar, "Simply Speaking...Selling Yourself & Your Ideas" was exactly the type of hands-on, practical skills transfer that we were looking for! I also want to thank you, for your thorough preparation and the quality of the materials that you provided to our group. Much of the anecdotal feedback that we have received truly speaks very positively to your professionalism and method of delivery. As our group makes presentations for a living, you were able to speak to them in a language familiar to them and to provide them with tips and techniques with which they were previously unfamiliar. The participants left your seminar energized and with an increased level of confidence in their abilities to make professional presentations."
